

## VADA STATEMENT Regarding Testing and Covid-19

March 18, 2020

VADA's mission has always been to protect fighter safety while promoting fair, clean sport free of illegal performance enhancing drugs and methods.

We are keenly aware of the worldwide situation surrounding Covid-19 (coronavirus) and how it may affect testing for PEDs. This situation has been changing on a daily and almost hourly basis. It is impossible to know what conditions will be like as circumstances evolve.

VADA is following, and will continue to follow, the advice of local and international healthcare professionals to ensure that any testing we might conduct is consistent with the need to protect our athletes and doping control officers during these uncertain times.

Sincerely,

A handwritten signature in black ink, appearing to be "M Goodman", written in a cursive style.

Margaret Goodman, MD  
President, Voluntary Anti-Doping Association
